Expertise

Klaus-Dieter Schneider has been working for more than 30 years as advisor and representative of mid-size companies and family owned businesses. The working area of Klaus-Dieter Schneider spans from corporate law and investment and succession arrangements to all kinds of agreements which an entrepreneur needs in his daily business. These areas are supplemented by the legal creation of mergers, restructurings and rationalizations of enterprises, in order to ensure their prosperous continuation in the future. He has been member of advisory boards in mid-size enterprises for many years.

Irrespectively of in which area he is asked for his advice, Klaus-Dieter Schneider sees himself always as a personal advisor. This applies both in negotiations out of court, as well as in litigation disputes. He says: "Lastly, it's all about the reinstatement and securing of the legal fairness. This requires creative legal ideas and concepts, which enable the parties to find pragmatic and quick solutions; namely such which are acceptable for both parties."
