YOU CAN RELY ON US

Real estate economic factor: Forward-looking and long-term planning is an essential factor in the real estate industry. We are your reliable partner who develops sustainable solutions for your property together with you.

Structures that minimise risks are the basis for successful real estate projects. Sound legal advice is essential, especially for a sustainable real estate industry. Real estate and construction law with all its facets is therefore one of the core competences of our advice. We accompany you throughout the entire life cycle of a property, starting with the structured acquisition, through planning and construction, including financing, to management and realisation.

We advise our clients on private land purchases as well as on the acquisition of commercial properties, the expansion of business locations, the implementation of new construction projects or the investment in real estate. Our guiding principle is: Advice should be as comprehensible as possible and always focus on the people behind the project.

In complex and international real estate transactions, we work in an interdisciplinary and cross-border manner. Experts from real estate and construction law, civil law, public procurement law and procedural law work hand in hand to find solutions that are precisely tailored to your needs.

Even if it is our aim to avoid conflicts from the outset by drafting the contract accordingly: Our advice does not end in the event of a dispute. We also accompany and advise you on dispute resolution and choose the appropriate way to resolve the conflict together with you.

Our clients are as diverse as the real estate industry itself. Industrial companies, architectural and engineering firms and project developers are among our clients, as are public institutions and private individuals.

Three good reasons – what sets us apart:

Your challenges are our day-to-day business. Our lawyers combine the full range of skills required to successfully implement your strategic and operational objectives.

We want to understand your business.

And make every effort to really get to know you. Our goal is to build a long-term partnership and work closely with you – side by side with your management teams.

Locally rooted, nationally and internationally networked.

At our locations, lawyers are at work who know the legal and economic particularities on site and are at home in the respective cultures. As a team, we develop solutions for you that take you further. No matter whether on the national or international stage.

SELECTED CONSULTATION GOALS

The only static thing in real estate is the property itself. Your individual interests and the real estate project with its specific risk structure are the focus of our advice. We take into account the respective special features and find the optimal solution for you.
